

ABE CENTENNIAL SEMINAR SERIES

twenty twenty-three

SPEAKERS

Leslie Gowdish

Managing Director in
FTI Consulting's Asset
Lifecycle Management

UF/ABE Alumni

The Journey from Agricultural & Biological Engineering to Technology Enablement

Leslie Gowdish is a Managing Director in FTI Consulting's Asset Lifecycle Management practice within Construction Solutions and is based in Dallas, Texas. In this seminar, Dr. Gowdish will outline how the faculty, learnings, and time at UF ABE evolved into her work where she is partnering with her clients to maximize the capital efficiency of their assets through technology enablement.

Robert Horton

Vice President of
Environmental Affairs
& Sustainability for
DFW Airport

UF/ABE Alumni

Enhancing Resilience Capabilities for Critical Infrastructure using Digital Twins: A DFW Case Study

Robert Horton is Vice President of Environmental Affairs & Sustainability for DFW Airport. In this seminar, Mr. Horton will review DFW Airport's use of digital twin research to 'battle-test' infrastructure systems against diverse potential threats so that infrastructure managers can gain valuable insights into system performance and resilience under various conditions.
